Education

University School of Automation and Robotics (GGSIPU)

B.Tech in Industrial Internet of Things | GPA: 8.83/10

Expected July. 2027

Delhi, India

Bal Mandir Sr. Sec. School

CBSE Class XII | 92.6%

2022

Delhi, India

Experience

RARS Innoventa Private Limited

June 2026 – Present

Software Development Intern

- Developed modular backend services and responsive React interfaces for a **B2B marketplace**, supporting core workflows across product cataloguing, inventory control, and order fulfillment.
- Built an end-to-end **community platform** with automated user onboarding, event **RSVP management**, and secure payment gateway integration.
- Designed, developed, tested, and deployed full-stack features using **React, Node.js, Express.js, and PostgreSQL** while collaborating with senior engineers.

Projects

Business 4.0 – Community Meetup Platform | React, Node.js, Express, PostgreSQL, Cloudinary

- Built a full-stack platform where members can sign up, log in, and **RSVP to events**, using JWT authentication with a separate admin role for organisers.
- Created an admin panel to add, edit, and cancel events and upload images, with photos stored on **Cloudinary** and event data in **PostgreSQL**.
- Automated the event registration workflow with **UPI payment** proof verification, automatically synchronized attendee seat allocations.

SafarSaathi – Cab Booking Application | React, Node.js, Express, PostgreSQL, Twilio

- Implemented a **multi-tier RBAC system** managing distinct authentication flows for Admins, Drivers, and Customers via JWT.
- Developed a comprehensive **Admin Dashboard** for revenue tracking and a **fleet management system** with real-time driver assignment and automated WhatsApp confirmations.
- Integrated **Razorpay** for secure payment processing and built a complete **driver onboarding workflow**, streamlining the end-to-end booking lifecycle.

Technical Skills

Languages: JavaScript (ES6+), C/C++, SQL, Python, Java

Front-End: React.js, Next.js, Tailwind CSS, Redux

Back-End: Node.js, Express.js

Databases: MongoDB, PostgreSQL, MySQL

Tools & Platforms: Git, GitHub, Postman, Vercel, NeonDB

Achievements & Certifications

Smart India Hackathon (SIH) - Cleared Round 1 of the national-level innovation hackathon

Samsung Innovation Campus Certificate - Completed professional training and certification in Artificial Intelligence

Google Cloud GenAI: Prompt Engineering - Google Cloud Skills Boost

Languages

English (Fluent), **Hindi** (Native), **Bengali** (Native)
